EDUCATION

- 2001-2003 Post-doctoral Fellowship in Cardiovascular Disease
 NHLBI Training Grant
 Johns Hopkins University Bloomberg School of Hygiene & Public Health
 Baltimore, MD
- 2001 Genetic Epidemiology, Ph.D.
 Johns Hopkins University Bloomberg School of Hygiene & Public Health
 Baltimore, MD
- 1995 Genetic Counseling, M.S.
 Northwestern University, Chicago, IL
- 1992 Psychology, B.A.
 Brown University, Providence, RI
-

RESEARCH EXPERIENCE

- 2020 Principal Investigator for the AAN (*Allergy & Asthma Network*) AAN PEACE (*Pain, Exercise and Cannabis Experience*) Survey
- Developed study protocol and questionnaire to examine patterns of cannabis use, knowledge and attitude in people with allergies/asthma.
 - Study ran from May through September, 2020 with over 800 respondents.
 - Cleaned and analyzed data, prepared manuscript.
- 2020 Founder and CEO of Canna Research Foundation, Boulder, CO
- CRF is a non-profit organization working under the fiscal sponsorship of Professional Philanthropy Fund.
 - Our mission is to “be the preeminent population health outcomes research group for cannabis research and advisors for medical societies, patient advocacy groups, pharmaceutical companies, manufacturers, distributors, and other organizations considering cannabis research.”
 - CRF has several ongoing epidemiologic studies, including collaborations with medical societies and universities, dedicated to understanding cannabis patterns of use,

attitudes, knowledge, and practice/behavior in patient populations and the physicians who treat them.

- 2018 Principal Investigator for *The Athlete PEACE (Pain, Exercise, and Cannabis Experience) Survey*
- Online survey with 1,161 athletes to characterize cannabis use patterns in athletes and whether cannabis is associated with pain and well-being.
 - Led study from conception to 3 publications and 3 conferences presentations.
- 2016 Principal Investigator for *The Sisu Study*
- Developed study protocol to examine mental toughness latent in 1,250 endurance athletes.
 - Analyzed results, prepared tables, and wrote the manuscript.
 - Established *the Sisu Quiz* by creating an algorithm based on study results. The *Sisu Quiz* allows for test takers to determine their level mental toughness on 8 domains and a total mental toughness score. Can be used clinically by coaches and medical providers.
- 2013-2017 Statistical consultant, Boulder, CO
- Worked with clients regarding: operationalizing hypotheses, choosing appropriate measures for analysis, determining proper statistical tests, reviewing results.
 - Tutored clients on statistical methods enabling them to carry out their analyses.
 - Performed data preparation and cleaning, data analysis, structuring results tables.
 - Provided written interpretation of results and preparation of papers for publication.
- 2004-2013 Institute for Behavioral Genetics, University of Colorado at Boulder, Boulder, CO
"Research on the genetic and environmental bases of individual differences in behavior"
- Interests included: impact of physical activity on physical and mental health, subjective effects of drugs on drug use outcomes.
 - Worked with large data sets including twin studies, family studies, adoption studies, clinical subjects, and community-based studies.
 - Statistical analysis including: multiple regression, cluster analysis, item response theory, longitudinal analysis, mixed-effects models, survival analysis, latent class analysis, Mokken scaling, structural equation modeling.
 - Performed extensive literature reviews.
 - Prepared papers for journals, grant writing, and survey design.
- 1995-2003 Bloomberg School of Hygiene & Public Health, Johns Hopkins University, Baltimore, MD
"Gene-environment interaction in birth defects"
- Focused on birth defects including oral clefts, craniosynostosis, and congenital heart defects
 - Association studies, linkage analysis, grant writing, questionnaire development
- 1993-1995 Northwestern University, Chicago, IL
"The Effect of Knowledge and Attitudes on Decision Making Regarding Prenatal Diagnosis"
- 1991-1992 Brown University, Providence, RI
"Social Categorization and the Truly False Consensus Effect"
-

AFFILIATIONS

Institute of Cannabis Research Scientific Advisory Board Member (2019-present)

Journal of Cannabis Research Reviewer (2019-present)

JACI: In Practice Reviewer (2018-present)

The International Cannabinoid Research Society Member (2018-present)

Industrial Hemp Research Foundation Scientific Advisory Committee Member (2018-2019)

OTHER ACHIEVEMENTS

- Endurance coach for triathletes and runners (2003-present)
 - Author of *The Champion Mindset: An Athlete's Guide to Mental Toughness* (St. Martin's Press, 2017)
 - Ironman 70.3 World Champion (2008)
 - United States Olympic Team Member, 4th place triathlon (2000)
 - 7x Olympic Trials qualifier in three sports (swimming, triathlon, marathon)
-
